

QUALITY POLICY

HENRY WILSON LIMITED (HWL) is an Engineering Service Company with specialty in various technical services to the Oil & Gas and other sectors of the economy.

HWL has been consistent in offering and maintaining quality services in the areas of Engineering Supports Services, Operation and Maintenance Services, Safety and Security Engineering Services, Supply Chain Management & Procurement, Information and Telecommunication Technology Infrastructure, Technical Manpower Services, Quality Assurance and Quality Control Inspection Services and Project Management Services.

Our priority always is that our products and services satisfy our customers as well as comply with regulatory requirements applicable in the industry.

HWL management is committed to maintaining and improving that reputation with the following objectives:

- ❖ Achieving and maintaining quality system compliant with the tenets of ISO 9001:2015.
- ❖ Providing the best skilled workforce through training, motivation and development.
- ❖ Encouraging a philosophy of continuous improvement in all areas.

HWL management shall assess the effectiveness of the Quality Management System and the relevancy of the objectives stated in this Quality Policy through a regular Management Review.

This statement does not add to or detract from obligations as defined in any conditions of contract and will be subject to review and updating as considered necessary.

A handwritten signature in blue ink, appearing to read 'Oladeinde', is positioned above the name of the Managing Director/CEO.
